Version 1: July 2024

FISHER GLOBAL FOUNDATION

PRIVACY & COOKIE POLICY

General

The Fisher Global Foundation (the "**Foundation**," "**we**," or "**us**") is committed to respecting the privacy of visitors. This Privacy & Cookie Policy (the "**Privacy Policy**") sets out how we collect, use, and share personal information. This Privacy Policy also explains how we use cookies and similar technologies on the website www.fisherglobalfoundation.com (the "**Website**").

Any changes to this privacy policy will be posted on the Website and you can also access this Privacy Policy via our homepage and from the bottom of every page by clicking on the appropriate link in the footer.

Use of the Website constitutes acceptance of this Privacy Policy. The continued use of the Website following the posting of changes constitutes your acceptance of such changes.

What Information Fisher Global Foundation Collects

The Foundation collects the following information:

- **Personal Information.** When we refer to "**Personal Information**" in this Privacy Policy, we mean any information by which you may be personally identified or contacted, whether online or offline. We may collect certain Personal Information from you, such as your first and last name, employment information, home or other physical address, email address, phone number, or other contact information, whether at work or at home. If you choose not to provide the requested Personal Information, the Foundation may not be able to provide you with certain services. To the linked to an individual, Personal Information also includes **Technical Information** (defined below).
- **Technical Information.** We may also automatically collect and use technical data and related information, such as information about your device, location, system and application software, peripherals and other data related to your interactions with the Website ("**Technical Information**"). We may automatically collect Technical Information through cookies and other tracking technologies. The information we collect from these technologies may include your IP address, device ID, browser information and the page you request.

How Fisher Global Foundation Uses Information Collected

The Foundation uses Personal Information for the following reasons:

- Internal record keeping.
- To improve products and services.
- For quality assurance and training purposes.
- To follow up, either by email, phone or mail, with people who have requested information and/or materials.
- To periodically send promotional email or mail about services, recent developments or other information individuals may find interesting using the email address or mailing address provided when requesting information.
- To access certain features or areas of this Website.
- As otherwise permitted by law.

The Foundation discloses information externally as permitted or required by law to affiliates, vendors, regulatory agencies, and law enforcement.

How to Contact Fisher Global Foundation

If you have any questions or concerns regarding this Privacy Policy, the Foundation can be contacted as follows:

Fisher Global Foundation

info@fg.org

To stop receiving communications from the Foundation, send an email to info@fg.org. We will do our best to prevent you from receiving Foundation communications in the future.

Security

In order to prevent unauthorized access or disclosure, the Foundation has put in place suitable physical, electronic and managerial procedures to safeguard and secure information, including Personal Information. Nevertheless, due to the nature of the Internet and Internet technologies, security and privacy risks cannot be eliminated, and the Foundation cannot guarantee that information will not be disclosed in ways not otherwise described in this Privacy Policy.

Other Websites

The Foundation website may contain links to enable users to visit other websites of interest easily. However, once users have used these links to leave this site, users should note that the Foundation does not have any control over that other website. Therefore, the Foundation cannot be responsible for the protection and privacy of any information which users provide while visiting such sites and such sites are not governed by this Privacy Policy. Individuals should exercise caution and look at the privacy and cookie policies applicable to the website in question.

Cookie Policy

A cookie is a small text file downloaded to an individual's computer (or other device) when accessing webpages that use them. Cookies and other online tracking technologies, such as pixels, tags, or web beacons (collectively referred to in this policy as "**cookies**") allow a website to store and retrieve information about visitors' online activity. Cookies are, for example, how a website remembers what display language you chose or what items you put into your online shopping cart.

Cookies can be categorized by who places them:

First-party cookies: These cookies are downloaded to an individual's computer from a server or domain managed by the publisher of the website whose service the individual is requesting.

Third-party cookies: These cookies are downloaded to a computer from a server or domain that is not managed by the publisher, but by another entity that may be seeking data obtained through cookies.

Cookies can also be categorized by their duration:

Session cookies: These cookies are designed to collect and store data while the individual accesses a web page. They are often used to store information for the duration of a visit to the site (e.g., what account you are logged into). Once an individual leaves the website, the session cookie is deleted.

Persistent cookies: These cookies store data on a computer for the duration of the period set within the cookie's file, which is determined by the entity controlling the cookie, and can range from a few minutes to several years, or until manually deleted.

Lastly, cookies can be categorized by the function they serve. The Foundation uses the following types of first- and third-party cookies:

Functionality Cookies

These cookies allow the website to remember choices you make (such as your geographic region or preferred text size). Functionality cookies do not collect any Personal Information. Enabling functionality cookies may be necessary to access the full content of website material.

Personalization Cookies

Personalization cookies allow a website to remember information that changes the page's appearance or behavior, such as, for example, the language selected for viewing the page.

Analytics Cookies

Analytics cookies collect pseudonymized information to analyze how individuals browse a website and enable the Foundation to measure the number of visitors to its websites, as well as to measure and analyze how individuals interact with the site. We use this information to improve the websites and the products or services offered.

Behavioral Advertising Cookies

The Foundation serves advertisements on various websites using third party companies. If an individual visits a website or clicks on a Foundation advertisement, behavioral cookies will be placed on the individual's computer. Behavioral cookies allow the Foundation to manage and optimize its digital marketing (e.g., banner ads, pages offering informational brochures, email campaigns, etc.). Behavioral cookies may be used to build a profile to provide content more relevant to an individual's interests. They adapt advertising and the content the individual sees on other websites based on browsing habits, including how the individual navigates websites, as well as how the individual interacts with internet advertising.

"Do Not Track" Signals

Some internet browsers send signals to each website visited, giving notice of the user's privacy preferences. The Website recognizes signals sent through "Global Privacy Control" and will honor requests to limit information sharing. Please keep in mind that Global Privacy Control signals are limited to the device and browser. Users should enable Global Privacy Control on each device and browser. If users block or clear cookies, they may need to re-enable Global Privacy Control.

How to Manage Cookies

As explained above, cookies help you to get the most out of the websites that make use of this technology. Disabling cookies may affect the functionality of many of the websites you visit. If you do disable cookies, performance and functionality will be affected. If you wish to delete, disable, or re-enable cookies, you may do so through your browser as follows:

Microsoft Edge: https://support.microsoft.com/en-us/microsoft-edge/view-cookies-in-microsoft-edge-a7d95376-f2cd-8e4a-25dc-1de753474879

Chrome: https://support.google.com/chrome/answer/95647?hl=en

Firefox: https://support.mozilla.org/en-US/kb/cookies-information-websites-store-on-your-computer

Safari: http://www.apple.com/au/support/mac-apps/safari/

All other browsers: Please look for a 'help' function in the browser or contact the browser provider.

Changes to Privacy Policy

From time to time, the Foundation may use data for new uses not previously disclosed in its Privacy Policy. If its information practices change at some time in the future, the Foundation will post the policy changes to info@fg.org to notify users of these changes and provide the ability to opt out or unsubscribe from these new uses. For the most up-to-date information on how the Foundation uses Personal Information, please visit the Privacy Policy on the Website.
